- Any one elective subject may be offered as open elective (for specific departments).
- For all electives except Elective I and Elective V, the course can be selected from the approved list of elective/open elective courses. Students who are doing internship outside the institute will be permitted to opt these courses in online mode, if available. Otherwise, they may select the equivalent subject from the subjects available on the online platform with the permission of the department.
- For Elective I and Elective V, the supervisor has to assign course and also the course contents. The same should bear the approval of the departmental committee constituted by the Head. The committee must consist of minimum three faculty members. The examination and evaluation will be done by the supervisor. It is desirable that the concern supervisor selects the courses available on the online platform as approved by the department.
- Laboratory I to Laboratory V will be assigned in accordance to the elective subjects offered in that semester or may be related to some advanced software/hardware tools/techniques as decided by the department.
- Practical Training shall be carried out after completion of the sixth semester and during the summer vacation. The evaluation of the same will be done in the seventh semester. This includes internship carried out at industries/ R&D organizations/ reputed academic institutions. Any practical training/internship done before the sixth semester shall not be counted against the above.
