

# **NATIONAL INSTITUTE OF TECHNOLOGY SIKKIM**

---

## **Hostel Facilities**

**Hostels:** The institute has residential facilities for all students, even though the institute is running on temporary campus. Both boys and girls have been provided separate accommodation facility in different hostels. There are three (3) hostels for girl students and Eleven (9) hostels for boys students within the campus. Since the Institute is running on a small temporary campus and students' strength is increasing every year, two (2) new hostels have been hired on rent near the campus, at distance of about 1.5 to 2 KM. Moreover, keeping in view on further requirement, construction of two new hostels are going on within the campus, having a capacity of about 240 students. Also, the newly admitted 1<sup>st</sup> year students are kept in separate hostels away from senior students to avoid ragging.

Generally, four students share an apartment consisting of two rooms, attached toilet (having geysers), and a balcony. The buildings are airy, and receive enough sunlight with a beautiful view of snowy Himalayan peaks, like Mt. Narshinga and Mt. Kanchenjunga (World's third highest peak).

**Mess Facility:** There is a central mess facility large enough to accommodate 250 – 300 students. The mess is run by a contractor chosen through open tender. The monthly expense stands at around Rupees Two thousand eight hundred only (Rs.2,800/-). The mess is fully equipped with all modern facilities for cooking and serving food. There is another boy's mess fully managed and run by the students themselves. The Boys students are free to join either of the mess. The girls' hostels mess is fully managed and run by girls themselves. For all three messes, the Institute is providing all infrastructural facilities, like space, water and electricity connections, utensils, cooking appliances, Water purifiers, etc. The hostels are managed by the Hostel Wardens, from the staffs, and a team of Hostel Representatives, nominated by the students.
