

## About the Institute

The National Institute of Technology Sikkim (NIT Sikkim) is one of the esteemed institutions of higher learning in the country, established in 2010 as part of the 11th Five-Year Plan of the Government of India. Located in the serene Himalayan region, the institute offers undergraduate, postgraduate, and Ph.D. programs in various disciplines of engineering, technology, and applied sciences. NIT Sikkim is committed to providing quality education and fostering innovation and research. The institute has a growing reputation for academic excellence, with its students consistently securing placements in top national and international companies.

## About Sikkim

Sikkim, a small but picturesque state nestled in the northeastern part of India, is known for its breathtaking landscapes, rich biodiversity, and vibrant cultural heritage. Bordered by Bhutan, Tibet, and Nepal, it is home to the majestic Kanchenjunga, the third-highest mountain in the world. Sikkim boasts a unique blend of ethnic communities, including Lepchas, Bhutias, and Nepalese, each contributing to its diverse traditions and festivals. The state is also noted for its environmental consciousness, being the first fully organic state in India.

## Objectives of the event

- To provide participants with a thorough understanding of the transformative role Artificial Intelligence plays across various sectors.
- To introduce accessible learning pathways for those interested in entering or advancing in the field of AI.
- To highlight current applications of AI in the industry and showcase cutting-edge research being conducted in the domain.
- To inspire and empower participants to pursue entrepreneurial ventures and start-up opportunities within the AI ecosystem.
- To discuss the field of AI specifically from an Indian perspective, including its application domains, opportunities, and inherent challenges.
