1. ABOUT THE INITIATIVE

1.1 Yuva Sangam (युवासंगम)

Yuva Sangam (युवासंगम) under Ek Bharat Shreshtha Bharat is an initiative by Government of India to strengthen people to people connects especially between youth belonging to North Eastern India and other States.

Ek Bharat Shreshtha Bharat Yuva Sangam (युवा संगम) will focus on conducting exposure tours of youth between the 8 North Eastern States and other States. It will provide an immersive experience of various facets of life, development landmarks, recent achievements and youth connect in the host state.

During their visits, the youth will have a multi-dimensional exposure under five broad areas – Paryatan (Tourism), Parampara (Traditions), Pragati (Development), Prodyogik (Technology) and Paraspar Sampark (People-to-people connect).

1.2 Ek Bharat Shreshtha Bharat

Ek Bharat Shreshtha Bharat was announced by Hon'ble Prime Minister on 31st October, 2015 on the occasion of the 140th birth Anniversary of Sardar Vallabhbhai Patel. The Ek Bharat Shreshtha Bharat programme aims to actively enhance interaction between people of diverse cultures living in different States and UTs in India, with the objective of promoting greater mutual understanding amongst them. The underlying philosophy was to make the youth aware of our rich and diverse culture and be proud of it. Under this scheme, colleges/institutions are paired up to encourage the students from another college and volunteer them to make aware of the local culture.

The State of Sikkim and Odisha are the paired state to implement the program under Ek Bharat Shreshtha Bharat. Accordingly, AICTE has paired National Institute of Technology Sikkim and National Institute of Technology Rourkela for to coordinate the Yuva Sangam program.

2. ACKNOWLEDGEMENT

India has always been known for its 'Unity in Diversity'. Our beloved Prime Minister Shri Narendra Modi Ji started Ek Bharat Shrestha Bharat Initiative to fulfill the goal of Sardar Patel's vision which is to bring all citizens of the nation together, regardless of their caste, gender, religion or nativity. Cherishing the idea of unity in diversity of our nation and to develop understanding and establish long term engagement between States, the govt. of India has initiated the YUVA SANGAM 2023 under the aegis of Ek Bharat Shrestha Bharat. We are deeply indebted to our Prime Minister Shri Narendra Modi for emphasising on the confluence of states, which offered us a chance to spread the rich history, culture and beauty of Sikkim.

We would like to extend our deepest gratitude towards the Ministry of Education for providing a wonderful opportunity to strengthen the fabric of traditionally existing emotional bond through the multidimensional Learnings which includes Paryatan (Tourism), Parampara (Tradition), Pragati (Development), Prodyogiki (Technology), and Paraspar Sampark (People to People Connect).

We also thanked the Ministry of Home Affairs, Ministry of Development of North East Region, Ministry of Information and Broadcasting, Ministry of Tourism, Ministry of Culture, Ministry of Youth Affairs and Sports, Ministry of Railways, AICTE, IRCTC and all associated organization. Without Cooperation of these departments the success of Yuva Sangam Cannot be imagined.

This would also not have been possible without the unwavering support and effort of State Government of Sikkim and Tourism Department of Sikkim. They helped in planning the tour for Yuva Sangam Odisha team, obtaining the necessary administrative approval for organizing and shaping the event.

We would like to mention special acknowledgement to the Director NIT Sikkim Prof. Mahesh Chandra Govil for his relentless guidance and insights for offering an immersive experience to the Odisha team.

We appreciate the team NIT Rourkela for their unconditional guidance and hospitality rendered to our team in Odisha. A special thanks to Director NIT Rourkela and Director IIM Sambalpur for sparing valuable time with us.

NIT Rourkela to host the youth from Sikkim for a 5-day exposure tour to Odisha under the Ek Bharat Shreshtha Bharat –YuvaSangam programme.

Rourkela, 23/2 (Jatadhari Majhi): NIT Rourkela proudly informsthat it has been chosen as the Nodal Institute for Odisha and paired with NIT Skkim to host the YuvaSangam youth exchange programme under the Ek Bharat Shreshtha Bharat (EBSB)

YuvaSangamprogramme. NIT Rourkelais going to host the youths from Sikkim for a 5-day exposure tour to Odisha. 25 participants from Sikkim and 5 faculty/staff of NIT Sikk im will be on the tour of the state of Odisha, starting from February 25th to March 3rd, 2023. The EBSB coordinators from NIT Rourkela will organize their tour, which includes visits to different academic institutions, tourist places, notable industries, etc. during this 5-day tour (excluding arrival and departure day). Similarly, NIT Rourkela has selected its first batch of 40 young participants within the 18-30-year age group (including students, NSS/ NYKS volunteers, employed/selfemployed persons, etc.), from different districts of Odisha for an exposure tour to Sikk im state starting

from 1st March to 7th March 2023. YuvaSangam is an initiative by the Ministry of Education, Government of India to strengthen people-topeople connections, especially between youth belonging to North Eastern India and other states. It will provide an immersive experience of various facets of life, development landmarks, recent achievements and youth connections in the host state. During their visits, the youth will have a multi-dimensional exposure to five broad areas -Tourism, Traditions, Development, Technology, People-to-people connect. This program is being organized in collaboration with various other ministries and departments, including Education, Culture, Tourism, Railways, Information & Broadcasting Youth Affairs & Sports, Home Affairs, Department for Development of North-East Region (DoNER) and IRCTC. Around 1000 youth will participate in the pilot tour of YuvaSangam. This project can be considered a unique way to connect and strengthen the bond between

young people of the North Eastern States and the rest of India. The program is fully funded by the Government of India towards travel and there is no expenditure on the part of visiting students as the host institute is providing accommodation and food.

Duringthe tour, participants will visit heritage sites, sports infrastructure, industries, religious centers (Samaleswari temple etc.), education institutes, and meet Self Help Groups primarily involved in making products of millets and attend the cultural showcase and experience the rich tradition and heritage of Odisha. They will also get a first-hand experience of living

among people with a mixed set of cultural diversity at the NIT Rourkela campus and explore their scientific andacademic expedition.

The nodal officers for YuvaSangam (Youth Exchange Programme) Odisha-Sikkim are Prof. WinnyRoutray from NIT Rourkela and Mr. Ram Nepal (Assistant Registrar) from NIT Sikkim. To detailmore on the tour to Sikkim, selected youth from Odisha had an orientation programme on 22.03.2022. To achieve the goal of 'One India united India and strong India', NIT Rourkelais proud to be a part of this visionary initiative by the Government of India.

The visiting students also performed folk dances from the state of Odisha. The team visited Buddha Park, Siddheswar Dham, Tsomgo and other tourist hotspots of the state.

The sustainable and eco-friendly nature of economic activities in Sikkim that aligns with a vision of conservation of local heritage, flora and fauna and natural resources along with economic development was presented to the delegation. Temi Tea Garden and its processing plant were also visited by the team where various aspects of organic cultivation of tea and its processing into marketable products was presented by the officials of Temi Tea.

The interaction with organic farmers at Jhaubhari. Namchi has added more flavour to the visit to the only Organic State in the world. The widely prevalent concept of homestay that provides a first-hand experience of the day-to-day life of Sikkimese people was experienced by the team as they

spent a day at homestay in Namchi District.

A tour of Gnathang, a border village along the old silk route located at an altitude about 13,400ft, was made on 06 March. This tiny village surrounded by an army cantonment and 70 KM away from Gangtok has been selected under vibrant village programme of Government of India.

Terming the visit to Sikkim as a once in a lifetime experience, the students thanked PM Narendra Modi and the **Education Minister Dhar**mendra Pradhan for the visionary concept of Yuva Sangam which has created lasting memories, indelible learnings and new friends for a lifetime.

students The also wholeheartedly thanked NIT Sikkim, IRCTC and the Govt of Sikkim for warm hospitality and travel comfortable travel arrangements during the tour.

The send-off event had the presence of Prof MC Govil, Director NIT Sikkim along with the Nodal Officer of Ek Bharat Shrestha Bharat, Ram Nepal.

10. STUDENT'S EXPERIENCE

To be honest travelling in a train was very exciting moment throughout the journey as I had never seen train before in my real life so, I achieved one of my dream of how it feels travelling in a train. Prior to the journey I had many fears in my mind like what happens if I would get sick, if my belongings would get stolen or if I would get lost in huge rush of people which I usually saw in tv, such as people rushing around here and there to catch a train. Many things kept striking my mind as I had no idea about anything, but I ended up my tour safely and happily. The whole credit goes to our honourable Prime Minister Shri Narendra Modi Sir to give me opportunity to go outside my home state Sikkim for the first time. I would like to thanks the ministry of education and department of north east development region and other associated ministries to organise the YUVA SANGAM program that gave me an opportunity to upskill by gaining the exact knowledge from exploring the various aspects. I will never forget this journey in my life as it was very joyful and full of excitement, the knowledge I owned from this journey made me feel many things exist across the country which we must know to further develop our country and keep our culture alive in upcoming years.

I am feeling overwhelmed that I had the opportunity to be a part of Yuva Sangam under Ek Bharat Shrestha Bharat. I visited Hirakud Dam which is the longest earthen dam in the world and located across the Mahanadi River. It is just a few kilometers away from the Sambalpur town. The dam was primarily built for flood control, irrigation and hydroelectric power generation. It was my first time witnessing the beauty of Hirakud Dam and it's turned out to be one of the memorable experiences of my life. We walked on the top of the dam and got an overview about the gates and overall components of dam. There is a watch tower from where one can see the aerial view of Hirakud dam with reservoir on the other side. Especially being a Civil Engineering student, it will not only help me as an individual but also it will help in my academic career. This visit really turned out to be an informative tour for me.

I am very thankful to Our Honourable Prime Minister Shri Narendra Modi Sir to initiate Ek Bharat Shreshta Bharat Scheme under the aegis of which we can visit Odisha during the Yuva Sangam program. I am also very thankful to Honourable Dharmendra Pradhan Sir and G Kishan Reddy sir for giving me a platform to visit various places in Odisha. I am very much grateful to our respected Director Sir for his inspiring words and continuous support during my college career

During the Yuva Sangam tour I've visited Indian Institute of Management, Sambalpur. It was

established in the year 2015 functioning from its temporary campus at Sambalpur University, I came to know that Our Honourable Prime Minister Shri Narendra Modi Sir laid the foundation stone of the permanent campus on 2 January 2021. By visiting and attending the programme at this institute I was enlightened about the struggles of a freedom fighter, Veer Surandra Sai and other personalities of the state, played a significant role for the nation. Regarding some of them I was not aware and not taught in our schools. The speech of director of the Institute helped me to know the historical importance of the place as well as the similarities in Sikkim and Odisha in case of richness of handloom & handicraft. As stated by or PM We should support and buy our local products and encourage "Vocal for Local" to foster our culture and tradition. The words he spoke saying 'Sambalpur was the place where diamond use to be mined, now we want to produce our students as a diamond' taught me that through education qualities of human resource can be furnished and they can be made like a precious ornaments for the country. Along with my Sikkimese friends we presented the 'Dewsi' (played during the festival of Diwali in Sikkim) in front of the Odissi people. I also got an opportunity to sing a Nepali song and share some words with them by saying 'Wherever I may go, my heart will always remain Indian'. With the help of the programmes held at the IIM Sambalpur gave me some insight about the diversity of my great country India.

How could I have ever imagined that one day I will be able to visit one of the world's largest hockey stadium. This was named after the tribal leader and famous freedom fighter, Birsa Munda. I learned that if we contribute even a little bit and do something for the society, one may die one day but the respect and impact we leave in people's heart always remains embedded. People may not always remember how we are but the way we made them feel and the work we have done shall always be remember and praised. This stadium has the permanent seating capacity of about 20,000 and on 29th of January,2023 it has held its place in Guinness World Records as largest fully seated hockey arena in the world. It is such a proud moment for the people of India that in past few Years India has achieved much growth in terms of infrastructure, use of new technology and recognition in the world, which will surely lead us towards becoming Vishwa Guru, the dream of our Honorable Prime Minister Shri Narendra Modi Sir. This stadium marks as one of the great development and also boosts the tourism and economy of the state. Hockey is country's national sport, and it has a more way to go and earn it's place in heart of the people. I wish that someday I will have the privilege of watching the match in this stadium. We even got to see the changing room of the players and I don't have the gut to imagine the turmoil of emotions the players undergo before and after the match. That room must have seen many victories, insecurity, doubt, fear, happiness, tears and happiness. We will take the learning and also do something impact full for our country. I am very much thankful to our respected Prime Minister Shri Narendra Modi Sir for giving me a platform to explore myself outside Sikkim during Yuva Sangam event under the aegis of Ek Bharat Shreshta Bharat.

My experience at Yuva Sangam was truly remarkable. It was my first time visiting the state of Odisha and it was such an eye-opening experience. I was able to learn about the culture and lifestyle of the people living there. It was truly fascinating to learn about the different customs, traditions, and experience beliefs that they have. The most valuable thing I took away from this tour was the confidence and personality I gained. It was amazing to be able to communicate with the locals, and this gave me a sense of accomplishment. I also felt like I was part of a larger community and that I was connected to the people living there. Overall, my experience at Yuva Sangam was truly life-changing. It gave me the opportunity to learn about the culture, lifestyle, and language of the people in Odisha. I am forever grateful to Government of India and our respected Prime Minister Shri Narendra Modi sir. I am also thankful to all the concerned Central Ministries and Institutions because of which I have been able to be a part of Yuva Sangam. I am very much obliged to my honorable institute director sir for his constant guidance and care. He always taught us about वस्धैव कुटुम्बकम and through this Yuva Sangam tour, I got to know it means.

In a world so fast paced and people only caring about themselves it is very difficult to meet people with good heart and intensions likewise during our trip to Odisha, we saw many scenic beauty, I was more mesmerised by the people of Odisha. The people of Odisha were very kind and compassionate. From the welcoming ceremony to our farewell on the final day in Odisha, I could say that I did not have even a single bad experience with people there. During our stay in the hostel the ladies that prepared food for us treated us like their own created a very strong bond with them. They ensured that everyone not only had their food but also enjoyed it. They made us feel like we were not far from home. I am thankful for us with simply overwhelmed faces and smiles, they invited us inside their houses and offered us water and even showed us their handloom and shared their experiences and come into their houses and let aside offer us a glass of water. This kind gestures won my heart. This journey was once in a lifetime experience. I am truly thankful to our respected Prime Minister Shri Narendra Modi Sir for making me a part of this journey, I would also extend my gratitude to Dharmendra Pradhan Sir, G Kishan Reddy Sir and Anurag Thakur learn and explore myself not only in the academic field but also beyond it. I would also like to thank all my team Sikkim coordinator and members who made this journey so wonderful and memorable.

While visiting the birthplace of Veer Surendra Sai at Khinda village, Sambalpur district, Odisha, we had an opportunity to had a brief conversation with the great grandson of Veer Surendra Sai who was nearing 90 years of age. Although he had only studied till 5th standard but his English fluency was far good than that of the many graduates. He shared with us that at that time he studied publications of Macmillan which is a London based British publishing company which is known as to publish the two of the best-known works of Victorian era children's literature, no wonder why he is so good in speaking English. He also shared with us the first city the British landed which was Bombay and also told us that the Britishers came to Sambalpur via Surguja. He shared with us the main intention the Britishers came to Sambalpur was because of Diamonds due to which the longest dam in the world is named Hirakud. Although it was a brief but was a very informative conversation with him which we will take with us forever. We got to know more about the Veer Surendra Sai's history and to get more knowledge on Indian history was a plus point for us. We wished we had more conversation but there was no time for us. It was a great experience for me as it was a big thing to have a conversation with the great grandson of a freedom fighter. So, I am very grateful and would like to say thanks to our Honourable Prime Minister Shri Narendra Modi and The Ministry of Education for proving us this opportunity through Yuva Sangam.

The sayings that "work is worship" stood true in every sense to me. The Rourkela Steel Plant has helped many people earn their livelihoods and has had a huge impact on building our country's economy. With each passing decade, our country is climbing the ladder of development (Pragati) higher and higher with the use of advanced and new technologies (Prodyogik). Not only are they concerned about the profit, but they are also considering the impact they are having on the environment and trying their best to reduce the impact and work sustainably, like recycling the water they use, reducing the production of ash, neutralizing the carbon emitted, etc. This planet belongs to everyone, and it becomes our responsibility to take care of it and handle the issues with the right morality and knowledge we have gathered over time. What can I say about the people of Odisha! They were so warm and welcomed us with an open heart to explore the culture and traditions of their land. We were given comfortable accommodation and food in the hostel as well. Every person involved, from the cleaning aunty to the gatekeepers, the warden, the caretakers, the helping staff, and the students, were so helpful, kind, and considerate with us. The excitement and the joy with which the aunties used to bring us the food, with a big smile on their face and a greeting of "good morning," filled my heart with so much joy and happiness that it never felt like I was far away from my home and visiting a new place. It felt like home to me, and I belonged there for much longer.

Popularised by Swami Vivekananda, the slogan, "Arise awake and stop not till the goal is reached," surely strikes a chord when I recollect the enlightening, entertaining, and rewarding experiences which I have gained at Yuva Sangam.

The central essence of the program was to generate awareness of the rich diversity existing in India. From possessing a rich culture to a variety of mineral resources to different traditions of people, India is rightly regarded as वसुधैव कुटुम्बक्स which translates to "The Whole country is one family" which has made me believe that all human beings living on earth are a family. Odisha is also known for forest water being home to the World Largest DAM in the world "Hirakud Dam" and stands across the mighty river, Mahanadi, in the Sambalpur region of Odisha. It is famous as one of the first major multipurpose river valley projects started after India's independence. The main purpose of the Hirakud Dam was to check the massive floods that were affecting a large part of coastal Odisha. The name "Hira" is given to the Dam because Diamond was found there in earlier times. However, the best gift I got from this journey was a new found confidence. I feel fortunate to have been part of this beautiful journey. I got to know about the famous Handicraft tribes the Sarees they make which where beautifully design. I found Sikkim and Odisha similar in some ways like the richness of the cultural folk dance and handicraft.

I extend my gratitude to the Government of India and our Honourable Prime minister Shri Narendra Modi Sir for giving me this opportunity to explore the state of Odisha. I am also thankful to all Respected concerned Central Ministries and Institution for giving me this opportunity to be a part of Yuva Sangam. I am forever grateful to the Honourable Director of NIT Sikkim and the mentors for their guidance and care. I will always appreciate the time I spent on this tour. Overall, this experience has familiarised me with Innovation, Integrity, Inclusiveness, and the fact that we should be Unique, be Versatile, and we must live to learn together.

YUVA SANGAM (युवासगम

I had always been fascinated by the stories of brave warriors and their legacy. As a child, I used to speculate that they could be divine beings disquised in a human form, but they were all selfless humans who dedicated their lives to our people and our nation.

As part of the Yuva Sangam Program, we had the opportunity to visit Khinda village in the Sambalpur district of Odisha. This charming and scenic village is a testament to the legacy of one of India's greatest freedom fighters, Veer Surendra Sai. It was a truly heart-warming experience that will stay with me for life Veer Surendra Sai, a revolutionary leader, advocated for the rights of his people and encouraged them to fight for their freedom. His major contribution to India's struggle for independence was leading the Sambalpur rebellion in 1857, also referred to as the First War of Indian Independence. Alongside a band of rebels, he fiercely battled against the British, but was ultimately captured and sentenced to lifelong imprisonment. Despite his imprisonment, Veer Surendra Sai never wavered in his dedication to the cause of Indian independence and remained a source of inspiration and motivation for others. We were warmly welcomed by the villagers and guided us throughout the visit. I was especially moved by the great reverence with which they talked about his courage, his intelligence, and his dedication to the cause of Indian independence and how his legacy had continued to inspire generations of Indians. They were proud of their association with Veer Surendra Sai and have preserved his legacy through various means. The villagers have managed to preserve the remains of his house, and as I stood there, I felt like I had been transported back in time. I could vividly imagine him as a young boy, brimming with hopes and ambitions, and I felt an intense sense of kinship with him. It dawned on me that his hardships and sacrifices had paved the way for me to enjoy the freedom and independence of present-day India. One cannot help but feel a sense of awe and reverence as they walk through the village, imagining the struggles and sacrifices that Veer Surendra Sai and his fellow freedom fighters endured. The village is a reminder of the rich history and cultural heritage of India, and a testament to the resilience and bravery of its people.

Experiencing the history that was previously confined to books was a truly enlightening moment for me. I feel immensely grateful to our Honorable Prime Minister for his visionary initiative and for giving us the chance to learn and discover the richness of our heritage, culture, and history, which every Indian takes immense pride in.
